What we stand for?

Introducing and describing the goal and means of the Cyrus Force in the US (Followers of Cyrus in Iran)

Followers of Cyrus have existed in Iran since 2500 years ago. However, 20 years ago, the organization was officially registered in the United States of America under the name of "Cyrus Force," as a non-profit 501(c)(3) **Federal Tax ID #: 46-5635908** with its main objective to amend and restore Iran's constitution and the Fall of Ayatollah's Regime.

The Followers of Cyrus, whose name is the "Cyrus Force" in America, now have a goal and a means to amend the constitution in Iran and, eventually, the fall of the Ayatollahs' regime, which they have proposed in the attached booklet.

Cyrus Force is not a political party or a special interest group; furthermore, the followers of Cyrus are not looking to collect members and supporters; instead, they offer their road map to the Iranian diaspora and especially Iranian Americans, who, as volunteers with their own name and organization, to continue our strive towards the separation of church and state. We believe nobody should face repression in their quest for freedom.

The Followers of Cyrus offers the booklet describing our goal of social change through a precise process of amending the constitution in Iran in 8 steps. This process is provided to every Iranian diaspora member in their party, group, association, front, or congress, allowing them to examine this method and idea and, if agreed upon, follow the process outlined in the booklet.

Iranian diaspora as well as Americans, can implement this method and means of overthrowing the Ayatollahs' regime within the framework of their party and group and in their name without deviating from their organization's guidelines.

Cyrus Force's proposed amendment to the constitution does not involve rewriting and becoming the author of the new constitution; instead, it contains an 8-step process fully described in the twenty-page booklet.

In the past forty-five years, none of the significant movements and uprisings inside Iran, from the Summer of 1979 Kurdistan Massacre to the 2009 Green Movement, the June 2021 Manifestation of 14 people, and the Fall of 2021 massacre. None of these uprisings have brought a revolution to change the

Iranian constitution or the behavior of the Ayatollahs towards the separation of church and state; however, the recent revolution of The Woman Life Freedom has attracted the world's attention since 2022.

As written in the booklet, the regime of the mullahs is ideal for most of the countries of the world, especially Israel, the Arab world, and the World's Military Industrial Complex. No government in the world has ever wanted or shall want to change the mullahs' regime in Iran.

But with the advent of the Women's Life Freedom revolution, many people's consciences have been awakened. The time has come to transition the revolution through the subsequent phases on the unbreakable foundation of the Women's Life Freedom revolution, a protest against Articles 5 and 8 of the Iranian Constitution.

However, in the summer of 2024, to prevent the inevitable fall of the Islamic regime, Ayatollah Khamenei was forced to appoint a moderate and reformist as the interim President against his own will and desire so that he could entertain the Iranian people for a few years like President Khatami's era.

The followers of Cyrus and the Iranian people inside and outside of Iran know quite well that the selection and the appointment of the President in Iran is under the control of the supreme leader which is derived from the constitution. The President does not have full authority to govern over the country's macro policy, restrain theft, looting and support for terrorist groups. He has no meaningful control over his government, hence the Ayatollah's power in creating crises in the world will continue as in the past, but the President and the foreign minister role are to prevent the fall of the regime for a while through their clever, demagogic and disingenuous practice against the people.

In the booklet of the Followers of Cyrus, the process to reach our goal is clearly specified in simple language.

Let's be clear that the Cyrus Force in America has nothing on its agenda other than conveying the message to the US Senate and Congress that amending and restoring Iran's constitution is the only means of changing the behavior of the Ayatollahs and addressing this vital phenomenon until the Fall of Ayatollah's Regime.

Furthermore, the US Congress and Senate have no jurisdiction to put pressure on the Ayatollahs except to enact Smart Sanctions against Iran's Oligarchy looters!

It is necessary to explain that the current US sanctions against Iran are in favor of the government and looters of Iran, and at the same time, they have caused enormous financial damages to all sectors of society and most of the noble and defenseless people of Iran.

The aforementioned two measures are on the agenda of the Cyrus Force of America.

The rationale for writing such letters, guidelines, and sending booklet is because Iranians and Americans can act independently in their own name, and even without any dependency on Cyrus Force, hence, they convey the message of changing and restoring Iran's constitution and the Fall of Ayatollah's Regime to the American politicians.

This booklet of the Cyrus Force will be published in English and Persian languages.

*The Fall of
Ayatollahs Constitution and its Regime*

By

Cyrus Force

For

Woman Life Freedom

Preface

This pamphlet is an acknowledgment of the Woman Life Freedom Revolution in Iran.

Neither in the Constitution of the Islamic Republic of Iran (IRI), aka the Ayatollah Constitution, nor in the revolutionary narrative and promises of Ayatollah Khomeini was there any mention of the Hijab or the non-equality of women's rights.

Women in Iran, who were enjoying almost equal rights with men and freedom, gradually had their rights taken away, and protests gradually increased until the death of Mahsa Amini, which triggered the Woman Life Freedom Revolution.

This revolution, which is a protest to Articles 5 and 8 of the Islamic Constitution of Iran, will never disappear despite regime suppression attempts and events outside Iran.

The change of the Constitution in Iran is not any other country's business. Because of specific references in the Constitution to hostility and terrorizing another country and with explicit language to fight and threaten the interests of any other country, henceforth, the other country has the right to defend and protest against those references in the Constitution of the Islamic Republic of Iran (IRI).

Since eight instances in the Islamic Construction of Iran specifically call for hostility, terrorizing, and fighting with the interest of the United States anywhere in the World, the US has the right to question the intent and protest against the Islamic Constitution of Iran.

Meanwhile, the United States has a common ground with the people of Iran, who not only are protesting for the change of the Constitution, but also adore and respect the people of the US.

As a result of this situation, the Cyrus Force's mission is to convey this message to the US Congress and the American Government to enable and enforce Smart Sanction(s) against the Oligarchies of the Ayatollahs who have sleeping cells for the future terrorist acts against the United States.

Introduction

This pamphlet is a brief statement of Cyrus Force's Road Map for change of Ayatollah's behaviour in Iran and the organization's message to Western Administrations and Parliaments, specifically the Senate of the United States of America.

In the interest of brevity, four thousand years of history of the region and Iran is not mentioned herein, but to understand Cyrus Force's reasons for the "Change of Constitution in Iran and the Fall of Ayatollah's Regime" it is necessary to display the picture of Cyrus Cylinder, which was the heart of a genuine constitution, governing the region from India to the Mediterranean, before the collapse of the Persian

Empire fourteen Centuries ago.

"The conflicts of the Middle East will never end as long as the regime of Ayatollahs are in power in Iran," a quote from British Prime Minister Tony Blair when his Quartet Mission failed on May 25, 2015. Altering the Ayatollah's constitution in Iran, which ultimately changes the regime, is an eight-step process. After the "Woman Life Freedom" revolution in Iran, the fourth step has been entered, as explained in this pamphlet.

It is noteworthy that the two regimes in Iran after the Second World War have dominated the politics of the Middle East and have become a great source of income for the Military Industrial Complex. The Ayatollah's regime has been favored by the East and the West to remain in power in the past decades by creating crises. These governments have even encouraged the Ayatollah's theft to export the people's assets and deposit the stolen wealth in banks outside of Iran, let alone the profitable brain drain of the Iranians.

Although politicians' primary concerns are the trouble areas of the world, e.g., Ukraine, Gaza, and perhaps the South China Sea, the perplexing character of the Ayatollah's Regime, with its constitution, has enabled it to influence any trouble spot in the world by fighting against American interests.

Inside Iran, the "Woman Life Freedom" revolution started and will never slow down, end, or be forgotten like other movements in the past.

People inside Iran have no regard for the so-called opposition outside Iran led by the monarchists of the previous regime and Mujaheddin (MKO).

MKO was on the terrorist list of the West for a few decades.

In the past four decades, it has been public knowledge that those opposition groups have never been able to help people inside Iran.

Nevertheless, these two popular oppositions outside of Iran have nothing to say or do except relay the news and use public knowledge of the situation in Iran to gain a name for themselves and overshadow the revolution and the freedom movements inside Iran to benefit financially.

The first chapter of this pamphlet is Cyrus Force Road Map for the change of the constitution in Iran, the Fall of Ayatollah's Regime and our typical letters, which have been sent to the US Senators, the White House, and Western politicians.

The second Chapter is about what Cyrus Force is doing in the Western hemisphere.

The Third Chapter is about Cyrus Force's efforts and activities inside Iran, in which the Ayatollah's Regime could not object to enlightening the Iranian people. Included:

1-Reading the Persian Chronicle Quran (Quran e Rastin).

2-Reading Shahnameh (Epic of the Kings), the most significant Iranian literature.

3-Understanding the meaning of Cyrus Cylinder Message and compare that with the Magna Carta of England.

4- Remembering the three commandments of the Zoroaster.

The fourth chapter is the conclusion.

Chapter One

The Road Map

Message of Cyrus Force

The road map to save Iran, the goal of us, the Americans and the Iranian-Americans

Today, spreading words and writing articles about the history of several thousand years of Iran or the last hundred years, if it can be called the era of modernity and prosperity, will not heal the wounds of today's Iran, which are the looting, betrayals, and crimes of the Mullah's Cult terrorist regime until the destruction of Iran.

The young Iranian generation inside Iran seeks ways to save themselves and reach their goals. It is of particular interest that the Iranian diaspora in the West say and write that it is not essential to them.

Today, the young generation of Iran, who have led the Woman Life Freedom Revolution since late 2022, needs more international help to continue with the revolution and succeed in a reasonable time.

In the fall of 1978, when Khomeini was forcefully immigrated to Paris, twelve intellectual Iranians introduced a constitution to Khomeini that included the separation of religion from the government based on human rights, the freedom of the people and the press, and whatever the exiled political activists of the Shah's era wanted.

Khomeini approved the proposed constitution and promised it would be Iran's future constitution.

Consequently, the first slogan of the 1979 revolution was "Independence, Freedom, Constitution," which later transformed into the slogan "Independence, Freedom, Islamic Republic."

Khomeini preached his principles to the people until the day of the referendum on April 1st, 1979, to

remove the Pahlavi regime and establish the Islamic Republic.

In his first speech at Behesht Zahra Cemetery, he said, "Do not be just happy with our small work providing you with free water, electricity, and transportation; rather, be happy because we will build housing for you and even guarantee your future life after death."

After Khomeini's referendum on April 1st, 1979, with the formation of the Mullahs' Assembly of Experts instead of the Constituents Assembly, the regime's natural face was gradually revealed, and the Mullahs started discussing their own flavor of the constitution.

The most important principle of "Velayat e Faqih" (absolute power of the Supreme Leader), which Ayatollah Taleghani opposed, caused street protests across Iran. The protests were witnessed more vividly in the City of Sanandaj, Kurdistan, than in any other part of Iran.

Khomeini dispatched all the armed forces to Kurdistan to suppress and crush the protesters.

Ayatollah Khalkhali (known as Ayatollah Butcher) was sent to Kurdistan along with young Ahmadi Nejad (a professional killer) and started mass killings in Kurdistan that cannot be forgotten.

In that year, the images of the executions by shooters won the Pulitzer Prize!

In August and early September 1979, Ayatollah Taleghani, protesting the principle of Velayat-e-Faqih, angrily left the Assembly of Experts and migrated to Taleghan's birthplace.

Right after returning on the 16th of September 1979, they murdered Ayatollah Taleghani. On the 19th of September, Article 5 of "Velayat e Faghih" was inserted into the constitution by force, hence, completing Khomeini's deception.

For 45 years, the followers of Khomeini have stolen more than one thousand billion dollars from Iran's treasury with the direct use of Article 5 of the Constitution and deposited the stolen funds in foreign banks in the name of mullahs/cronies.

All the industries, mines, government companies, and agricultural companies were confiscated and then registered under the pretext of privatization in the name of the mullahs, their families, and agents by order of "Wali Faqih" (Supreme Leader) according to Article 5 of the constitution, which gives absolute power to the Leader.

During the eight-year war with Saddam Hussein and other proxy wars, enemies of Iran killed over a million Iranian youths as a result of the Wali Faqih decree in Article 5 of the Constitution.

Most Iranian people have stated and written that with Article 5, there is no need for a constitution because the Supreme Leader has the absolute power to do anything and everything with no limit to his authority!

The grand policy of the country is under the command of the jurist: declare war, execution, imprisonment, torture, suppression of the press, elections, and the withdrawal of incredible amounts of currency, all with the control and permission of the Supreme Leader according to Article 5 of the Constitution.

Today, the issue of the Woman Life Freedom revolution, which the hijab is a significant part of, has its roots in Article 5 of Velayat Faghih of the jurist, which in Iran is called (Bring Fire) and the executors of the orders of the jurisprudence, according to Article 8th of the constitution, which is called (the order of good behavior).

According to Article 8, they suppress, throw acid on girls' faces, poison female students in schools, and dozens of other criminal acts.

For the past 45 years, the youth of Iran should know that Poverty, Misery, and Crisis are the three factors that have kept the Mullahs' regime in power in Iran.

Over 60% of Iran's population lives below the poverty line. Hence, the Poverty and Misery of the people are the Mullahs' benefactors who do not allow anyone to get rich except themselves. People's poverty to the point of selling their body parts and the need for subsidies and relying on government rights are the

ideals of Mullahs who can steal more easily.

The scourge of state drug addiction and religious prostitution (Sigheh) has become sources of regime income.

The Mullahs' regime favors the US sanctions for two reasons:

- 1- to blame the poverty and misery of the people on the US sanctions,
- 2- to bypass the sanctions, they import American goods and services from third countries and sell them at many times more than the original price and put the profits in the banks of the West and the East in the name of Mullahs and their families.

The third factor of the regime's survival is generating the Crisis that the Mullahs have created in the region in the past 45 years.

The Military Industries Complex of the West and the East are interested in keeping the Mullahs in power. For this reason, the Western and Eastern governments prospered economically by selling arms.

The looting of Iran by the mullahs and putting all the stolen money in foreign banks is another guarantee of support from the West and the East to keep the mullahs in Iran.

For example, one of the thousands of mullahs' thefts is the remittance of 3 billion Dollars to Canada by Khavari, a close relative of Ayatollah Khamenei, at which the Canadian government issued a certificate of appreciation to this well-known Islamic Republic of Iran thief.

Inside Iran, the Woman Life Freedom Revolution is alive and well, will never stop, and will continue despite the oppression by the Mullah's regime.

Outside of Iran, educated Iranians publish the current news inside Iran quite well and with good intentions with the help of the Internet and tell the proud history of Iran to the youth.

There is not a day that groups, associations, congresses, parties, and groups of Iranians living abroad do not gather and demand the overthrow of the mullahs in Iran with petitions, announcements, and statements!

But these discourses do not even touch the robes of the mullahs in Iran. Despite all the anti-human violations of the Mullahs regime, somehow, the prestigious chairmanship of the human rights committee in the United Nations is chosen by an appointee of the Islamic Republic of Iran.

No powerful government in the World, and none of Iran's neighboring countries, especially the Arabs, can or want to change the Mullahs regime in Iran.

Even Israel, the so-called main enemy of Iran's Mullahs regime, according to Mr. Netanyahu, the Mullahs' regime has brought Israel closer to the Arabs, Israel's sworn enemy.

Today, no discussion other than "Changing the Constitution of the Islamic Republic" is a solution to save Iran.

No government in the World except the United States, which has all the banks under its control due to SWIFT and the strength of the Dollar, can change Iran.

At first glance, many experts argue that America cannot change the Constitution of another country.

However, in 1979, the Mullas wrote the Constitution of the Islamic Republic, which includes eight instances to fight against America and the defeat of America after forty-two years, establishing an Islamic World Government and creating international terrorism and enmity with America and her allies and fight with the American interests anywhere in the World.

America can object to the eight instances in the IRI's Constitution, and protests in the US Senate would ultimately echo the "Woman Life Freedom" revolution, which is related to other items in the Constitution.

American historians should know that the power of the Ayatollah's regime resides in international

terrorism. The fight against American interests is not only through its proxies, e.g., Hezbollah, Hamas, Yemeni Houthis, etc., but also the sleeping cells, with billions of Dollars, by the approval of “Wali e Faqih,” thousands of believers in “Wilayat Faqih,” the wealthy immigrants of the IRI regime have created all over the World, even in the United States.

To save Iran, we, the Americans and the Iranian Americans, have suggested to the US Senators in our states to review the eight instances in the Islamic Republic of Iran's Constitution.

With Smart Sanctions (Sanctioning thieves and looters of Iran), the US policy will be in harmony with the “Woman Life Freedom” Revolution, which is a protest to other Articles of the IRI Constitution.

We at the Cyrus Force, are behind the Iranian People and the American People until the day of freedom and prosperity.

Cyrus Force Typical Letter to the US Senators

Dear Senator xxxxxxxx, Date:xxxxxxx

We, the Iranian Americans of Cyrus Force, left our birth country, Iran, due to a Constitution that was imposed upon our countrymen and women by the Ayatollahs. We now find that we must have the privilege of bringing this to your attention today and asking for a voice in the Senate. We believe that bringing this to your attention is the only manner in which Iranian Americans can facilitate the downfall of the repressive and murderous regime of the Ayatollahs with the help of the American government. Please bear with us as we explain.

In contrast to the American Constitution of freedoms of speech and peaceful protest, the Iranian Constitution includes many pro-terrorism sentiments included in which, but not limited to, are anti-American and anti-Israel rhetoric. Due to this, we believe that a change in the Iranian Constitution is the first step in removing this murderous regime until the complete Fall of Ayatollahs Regime.

The true nature of the Ayatollahs' Constitution came to the surface ~~when they~~ when they took American hostages for 444 days. Since then, they have been committing these types of cruel acts of inhumanity, including incarcerating and murdering innocents. Due to these precise actions, we, as Iranian Americans, have two issues on our minds when thinking about the US policy in the Middle East.

1. The first is Israel's security—This should be the number one policy of the US administration in the Middle East, no matter who is in the White House or Congress. Israel is, to quote President Reagan, “the strategic treasure of the United States”; it is also the only democracy in the Middle East.

2. The second is the balance of power, human rights, and freedoms of the peoples of the Middle East. In light of these two all-consuming global issues, let us look at the two ideologies of Wahhabism all over the World and Shia Iran, which are imminent threats to Israel. It would indeed be a long discussion to argue which one is worse for Israel.

However, it has been argued and proved in the book "Imagine! The Fall of the Ayatollah's Constitution", that full recognition of Israel by Saudi Arabia will eliminate both threats to Israel forever. The beginning chapters of the book describe the intent of the Wahabi, Suni, and Shia sects of Islam. The book states, "If a gun with one bullet is in the hand of a Wahabi and four people, Israeli, Christian, Bahai, and Shia stand In front of him." "The Wahabi will use that one bullet to kill the Shia.

By mentioning this quote, we mean that the Wahabis will never relinquish their religious power. Still, we can manage to change the spiritual hunger that fuels the atrocities brought upon the people of Iran by helping to change the rule that had been put into place some 70 years ago.

The hatred between religions is so extensive and never-ending in that part of the world. Because of this tribal hatred, there are no other tools or means left for the people of Iran to get rid of the Ayatollahs in Iran, except for a narrative in the US. Senate to help the Iranian people change the Constitution in Iran that will eliminate the hatred and terrorism.

Instead, please become familiar with these egregious sections of the Iranian Constitution.

1. The Introduction- Introducing anti-American rhetoric and demanding that the world convert to Islam.

2. Article 11- Institution of Jihad and Islamic custom

3. Article 14- Retribution of non-respect and Jihad

4. Article 57- The governing powers in Iran, the legislative, the executive, and the judiciary powers, operate under the supervision and absolute authority of the religious leadership of “the community of believers,” the Islamic Republic

5. Article 60—The executive powers are exercised by the President of the Republic and his ministers, except in matters directly related to the leadership in Article 57, Meaning that the Supreme Ayatollah Leader exercises all law.

6. Article 144- The Army of the Islamic Republic of Iran must be an Islamic army, committed to the Ideology of Islam, with individuals who are faithful to and devoted to the goals of the Islamic revolution.

7. Article 151- This is a call to arms for the people to fight against all who do not believe in their religious ideals.

8. Article 154- Supports the struggle of the oppressed for their right to get rid of the oppressor anywhere in the world, called Jihad.

As you can see, the Constitution is directly influential in creating chaos and hatred in the world of non-Islamist, and therefore, changing the Constitution is the first step in normalizing and creating a democracy for all the inhabitants of Iran who desperately want this democracy and normalization.

Today, we, as Iranian Americans, are writing to you, our Senators, emphasizing the key to the removal of the Ayatollahs from power and the key to the Saudi's recognition of Israel starts with a change of the Iranian Constitution. We are hoping that with your guidance, we can make this happen.

We believe that when our Senators and the US Administration object to the Anti-American and Pro-Terrorist sentences in the Iranian Constitution, the US policy will be in harmony with the Iranian Youth and Girls, who are presently protesting articles 5 and 8 of the Constitution, which constitute the rights and freedoms of Iranian humanity.

The US intelligence agencies know, and Henry Kissinger wrote: “A democratic regime in Iran makes this nation the most natural ally of the United States of America.”

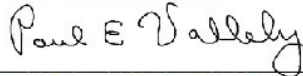

Therefore, we request your assistance in this matter and ask you for an audience to address these issues as quickly as possible.

With Great Regards,

The Iranian Americans of CYRUS FORCE,

Cyrus Force Typical Letter to the President

Dear Mr. President,

Greetings

After 45 years of being trapped in poverty, misery, and crisis, Iranians concluded and know very well that the regime of the Ayatollahs in Iran favors Bilderberg meeting, British Freemasons, Military-Industrial Complex, the US Allies, even US adversaries Russia, China, and Iran's neighboring countries.

Simply, Iran, as it is, is favoring every country except most of the Iranian people.

The sanctions in their present form and military attack help Ayatollahs to loot Iran and stay in power for more years.

Only "Smart Sanctions," i.e., sanctions against Iran's looters, can change the Ayatollah's behavior, which "Looting" is according to the Constitution of the Islamic Republic of Iran and Sharia Law.

This book titled "Imagine! The Fall of Ayatollahs Constitution" has two appendices:

First - some principles of the Constitution of the Islamic Republic show that the regime should be hostile to the US and that the proxies of the regime should be scattered around the world to fight for American interests wherever they are.

Second - some parts of the Quran Chronicle show that the regime of Ayatollahs, as they say, does not believe in the completeness of the Quran.

The purpose of publishing this book is to pay tribute to the heroes of the Revolution, "Woman Life Freedom," and to show the betrayal of a small number of Iranians abroad who the Western State Media supports.

If one day after the recognition of Israel by Saudi Arabia or before that, it is decided that the regime of the Ayatollahs should change their behavior, then the only leverage of American pressure is to call the regime's anti-American and terrorist principles and seek interference in the Constitution of the Islamic Republic and "Smart Sanctions" on the regime thieves and looters of Iran (Oligarchies of Ayatollahs). There are a few Articles of the Islamic Republic of Iran Constitution for the US Administration to consider.

The Islamic Republic of Iran Constitution, including its nine-page introduction, is 12,000 Words.

With the separation of religion from Government in the same Constitution, it becomes 9500 words.

For English readers, from the exact translation of the Constitution, sentences that should cause concern are copied and pasted here:

The catalyst for the nation's united movement was Imam Khomeini's objection to an American scheme, "the White Revolution," which was a step toward strengthening the foundations of tyranny and increasing Iran's political, cultural, and economic dependency on world imperialism.

Despite Imam Khomeini's exile from Iran because of his objections to the outrageous capitulation law (which ensured American advisers' legal immunity), the firm ties between the Muslim community and the Imam remained intact.

An Ideological Army

In establishing and equipping the country's defense forces, the focus shall be on maintaining ideology and faith as the foundation and measure. Consequently, the objective forms the Army of the Islamic Republic and the Islamic Pasdaran Revolutionary Corps. They will undertake the responsibility of not only guarding and protecting the borders but also the weight of ideological mission, i.e., striving (jihad) on the path of God and struggling to expand the sovereignty of the law of God in the world.

The Mullahs wrote the Constitution with the hope that this would be the century of the universal rule of the oppressed and the defeat of all the oppressors.

Article 11:

According to the Qur'an, "Verily, this brotherhood of yours is a single brotherhood. And I am your Lord and cherisher: therefore, serve me" (21: 92). All Muslims form a single nation. The government of the Islamic Republic of Iran is required to base its overall politics on the merging and unity of the Muslim countries. It must continuously strive to achieve the Muslim world's political, economic, and cultural unity.

Article 14:

According to the Qur'an: "Allah forbids you not, about those who fight you not for (your) faith nor drive you out of your homes, from dealing kindly and justly with them. For Allah loveth those who are just" (80: 8), the government of the Islamic Republic of Iran and Muslims are required to treat the non-Muslim individuals with good conduct, in fairness and Islamic justice, and must respect their human rights. This principle is valid for those persons who have not conspired or acted against Islam and the Islamic Republic of Iran.

Article 57:

The governing powers in the Islamic Republic of Iran consist of the legislative, executive, and judiciary powers. According to the forthcoming articles of this law, they operate under the supervision of the absolute authority of the command (Vali e Faghih) and religious Leadership (Imamat) of the community of believers. These powers are independent of one another.

Article 60:

The executive power is exercised by the President of the Republic and the ministers, except in affairs directly delegated to the Leadership by this law.

Article 144:

The Army of the Islamic Republic of Iran must be an Islamic Army, i.e., committed to Islamic ideology and the people. It must accept into its service deserving individuals who are accurate to the goals of the Islamic Revolution and devoted to realizing them.

Article 151:

Under the venerable Qur'anic verse, "Muster against them all the men and cavalry at your command, so that you may strike terror into the enemy of God and your enemy and others beside them who are unknown to you but known to God" (8: 59),

Article 154:

The Islamic Republic of Iran considers human happiness throughout human society as its ideal. It considers independence, freedom, and the governance of justice and truth as the rights of all the world's people. Consequently, while it completely abstains from any intervention in the internal affairs of other nations, it supports the struggles of the oppressed for their rights against the oppressors anywhere in the world.

Chapter two

Cyrus Force's Campaign in the West; A Call to Action: Exposing the Iranian Regime's Constitution and Fueling the Flames of Revolution.

In the wake of the "Woman, Life, Freedom" revolution sweeping Iran, Cyrus Force offers a crucial perspective: the Iranian Constitution itself lies at the root of the regime's oppression and its global threat. This report, not mere words on a page but a clarion call, delves into the Ayatollahs' hidden machinations of power, exposing their true agenda and urging the World to recognize the far-reaching consequences.

The Deception Unmasked:

For decades, the Iranian regime was shrouded in a veil of false promises. Western administrations and the Iranian people were lulled by Ayatollah Khomeini's pronouncements of democracy and friendly relations. But April 1979 marked a turning point. The Ayatollah's true nature came to light with the ink barely dry on the Islamic Republic Constitution.

Article 5, granting him absolute power (Velayat-e-Faqih), sparked dissent even among religious figures like Ayatollah Taleghani, whose mysterious demise casts a long shadow. Article 8 authorized (and continues to allow) violent suppression of women and anybody saying anything in opposition or truth about the regime.

A Legacy of Misery:

From hostage-taking to regional war, the Iranian regime's misdeeds are not isolated incidents. They flow directly from the very fabric of the Constitution, a document that thrives on poverty, misery, and crisis. These are not burdens the regime shares; they are its tools, fueling internal control and external influence.

A Global Game of Shadows:

Beyond the borders of Iran, the Ayatollahs play a dangerous game. The present Middle East crisis fosters an arms race and threatens ties between Arab states and Israel, both serving the regime's strategic interests. But the most chilling aspect lies in the insidious web of international Terrorism woven into the Constitution.

A Wake-Up Call for the World:

Until October 7, 2023, the world could dismiss acts of terror as collateral damage. But the recent attack marks a new chapter. For forty years, the Ayatollahs have seeded sleeper cells and amassed wealth, and now, with the rise of artificial intelligence, their reach extends further than ever. Ignoring the pro-terrorist clauses in their Constitution is akin to sleepwalking into a nightmare.

A Path Forward:

The present sanctions, albeit well-intentioned, ultimately play into the regime's hands. They impoverish the Population while enriching the Ayatollahs' cronies, who funnel their stolen wealth into Western banks. Instead, Cyrus Force proposes a targeted approach:

- "Smart Sanctions" directed at these individuals

- Disrupting their financial lifeline
- Triggering a domino effect within Iran

By amplifying the narrative about the Constitution's oppressive nature and supporting the Iranian people's demand for Article 5 and 8 revisions, the world can ignite the flames of the "Woman, Life, Freedom" revolution. This is not a call for foreign intervention but a plea for global recognition of the Iranian people's struggle and the crucial role their Constitution plays in perpetuating it.

Cyrus Force stands ready:

The next stage of the campaign unfolds within Iran itself. The people, empowered by awareness and global solidarity, will fight for their future. This report is an analysis, and a torch passed to the world, urging action and solidarity. Let us stand with the Iranian people, not just in words but in deeds, and witness the dawn of a new Iran, free from the shackles of an oppressive constitution.

Friends and foes need to understand Cyrus Force's mission, and we write it in different ways: Cyrus Force's purpose in publishing this book, which content randomly has been sent to American and European Politician is to bring the following messages from many Iranians to the attention of the American and European people:

- 1- Iranian people and even Western administrations were deceived by an unknown Ayatollah Khomeini from April 1978 until April 1979 by believing his speeches about democracy and maintaining friendly relations with the West.
- 2— After the referendum of April 1979 and solidifying the Islamic Republic Government in Iran, he started showing the true nature of his mindset when the Assembly of Ayatollahs wrote the Islamic Republic Constitution. Article 5 (Velayat e Faghih), which gave him absolute power, was opposed by many, even the most popular and kind Ayatollah Taleghani. On September 16, 1979, the Mullas killed him in a mysterious death, and on September 19, the Mullas wrote Article 5 in the Constitution.
- 3— Inside Iran, many things happened, which were not Western concerns, but taking Americans hostage at the US Embassy and the Iraq war was the direct consequence of the Islamic Constitution of Iran with Ayatollah's consent.
- 4— From the Autumn of 1979, every misdeed of the Iranian Government has been according to its constitution.
- 5— Three issues have kept the Ayatollah's Regime in power: Poverty, Misery, and Crisis. These have made the lives of most Iranians unbearable, but they are welcome and a good source of income for the West and East.
- 6— The crisis in the Middle East has had two benefits: 1- boosting the arms race and 2- bringing Arab Governments closer to Israel.
- 7— The most crucial brunch of the Crisis is International Terrorism against America and American Interests anywhere in the world, as indicated in 8 places in the Iranian Constitution.

8— Until October 7, 2023, any act of Terrorism by the Ayatollah's regime could have been considered collateral damage. But this should be a wake-up call that Ayatollahs, for the last forty-five years, have planted their Terrorist Sleeping Cells around the World with Billions of Dollars in wealth. In the future, when Artificial intelligence is for sale, it can bring more harm to the US than 911. God forbid!

9— America must be aware of the pro-terrorist sentences in the Ayatollah's Constitution.

10— The present form of sanctions is hearting the Iranian Population and helping Ayatollahs to loot Iran, with the excuse of going around sanctions and depositing their stolen assets in the Western Banks.

11—In Cyrus Force organization, we believe if the US Admiration starts a narrative about the Ayatollahs' Constitution and imposes Smart Sanctions on the cronies of Ayatollahs who have billions of Dollars of wealth in the West, it will cause a domino effect on the “Woman Life Freedom” revolution inside Iran and boost their demand for the change of Article 5 and Article 8, which are the core of this ongoing revolution in Iran.

12— We at Cyrus Force are preparing for the next stage of our campaign, which will be inside Iran, and it does not need any help or interference from outside the borders of Iran.

Chapter Three

Cyrus Force Campaign inside Iran

The Cyrus Force has the tools and know-how inside Iran to enlighten people about changing the Islamic Constitution of Ayatollahs.

1- **The Holy Book Quran**

Inside Iran, a Change in the Constitution must happen because the current rules and regulations of this Regime are not according to the teachings of the Quran.

To prove to the masses of people from whom they get their orders and guidance from Ayatollahs, reading the Quran in Persian and chronic (Quran e Rastan) is recommended. Sohrab Chamanara published a version of the Quran called “Quran e Rastan,” meaning True Quran.

In the Quran, four crimes have punishment: 1- Killing, 2- Stealing, 3- Armed rebellion against the Islamic Government, and 4- Adultery with four witnesses.

There is no punishment for writing or talking about the wrongdoing of the Islamic Government and Leader or for demonstrating against the Leader and Government.

There is no punishment for women not having a “Hijab” or headdress.

There is no punishment for drinking wine or spirit.

There is no punishment for being a nonbeliever. The Quran encourages Muslims to guide the nonbelievers and, if they do not believe in God, recommends leaving them alone, as God will punish them after death.

For a simple reason, an intelligent person with a little bit of common sense understands that the Islamic Republic of Iran Constitution is NOT in harmony with the teachings of the Quran, and the people should write a new Constitution.

However, the actual reason is to read the Quran correctly, chronically, and in one’s native language.

Ten years after the death of Prophet Mohammad (S) during the khalifate of Osman, a group of Islamic believers changed the chapters of the Quran (Surah), and the Khalif ordered that the people of Iran (Persian Empire) read the Quran in Arabic without knowing its meaning. Hence, the decision became a Tradition (Sunah) of Islam to read the Quran without knowing its meaning. Furthermore, only religious leaders and scholars can interpret and explain the meaning of the verses. This stupid tradition made the religious scholars cherry-pick verses, either saying the Quran is a book of peace and kindness or saying the Quran is a book of killing and terror.

Suppose the Quran is read chronically and in a person’s native language. In that case, one will see the biography of 23 years of the life of the Prophet in the Quran, where the first half of the Quran was written in ten years in Makah when the Prophet was married to Holly Khadijah, who was a Jewish Hanif (The Jews who believe in Ebrahim only) and the second half of the Quran written in thirteen years in Madinah when Salman the Persian (an Iranian Mazdakite fugitive) was an advisor and strategist of the prophet.

Fourteen centuries ago, an ideology like Communism rose in the Persian Empire, and King Qobad became Mazdakite. But his Crown Prince Anu-Shirvan, with the support of Zoroastrian clergies, massacred all Mazdakites and their leaders. Salman Farsi, a Mazdakite Scholar, ran away and took refuge among the Jews in Madinah.

When Prophet Mohamad (S) lost his supporters in Makah, his wife, and his uncle, he immigrated to Madinah because his book (the first half of the Quran) was based on stories from the Bible and praised Jews as “Chosen People.” The Jewish tribes of Madinah welcomed him and supported him.

Very soon, Salman found a plan to revenge the Iranian Kingdom and Zoroastrians. For thirteen years, he staged twenty-seven wars, during which Salman succeeded in bringing the entire Arabia under the flag of

Islam.

During these thirteen years, Salman sent the Book of Makah to his friends and the Iranian Army, who were fed up with Zoroastrian clergies and King injustice. He gave them the good news of the coming Messiah, who would free Iran.

Just like Khomeini in 1979, who promised good things, when they took control of the Nation, they showed their true face, and the law of the land became Madinah verses.

During the prophecy and writing of the Quran, Mohammad (S)'s followers asked to perform a miracle, as Mosa and Jesus did. He always replied that he was a man like you, and his only miracle was the Quran, which Allah revealed to him through Gabriel. I am only the messenger of Allah (Rasool o Allah).

Therefore, the Quran should be read chronically so that every verse coincides with the date and condition of the time it was written.

For example, the word Jihad is mentioned in the book's first half (Maki Verses) with the meaning of Strive. However, this word has been in the second half (Madani verses) forty times, meaning fighting and killing infidels.

Therefore, if the Quran is read chronically and in Persian, Iranians will find out the Constitution is not in harmony with the Quran.

However, our reasons for rejecting the Constitution are another important belief of Ayatollahs.

The majority of Shia Ayatollahs believe the Quran is in two volumes. What we have is the first volume, and the 12th Imam will bring the second volume. This has been said by many Ayatollahs, and Ayatollah Kamal Heydari could be searched on the Internet and listened to his sermons.

The Ayatollahs believe that since the Quran is not complete, we must find our guidance from Hadis (Hadis are Islamic stories quoted from prophets and Imam hundreds of years after their death).

Consequently, the Islamic Republic Constitution is not in harmony with the Quran and is based on Hadis.

2- **Shahnameh (Epic of the Kings)**

When the Persian Empire fell 1400 years ago, books and libraries were burned, and people were ordered to read only the Quran.

Iranians had no recollection of the past or any reference except the books of the Torah, which, after the Book of Ezra and the Coming of Cyrus the Great, allowed them to read the history of Iran in the Torah. Four hundred years after the fall of the Persian Empire, Ferdowsi spent all his life collecting information and writing Shahnameh, including 50,000 poems covering the beginning of creation, the Solar System, and the earth up to the defeat of the Persian Empire.

The book is recognized as a masterpiece by many non-Iranian and every Iranian scholar.

Shahnameh is a forbidden book of Ayatollahs but is most popular among Iranians, and some regard it as the Holy Book of Iran.

Shahnameh has been summarized in 300 pages, written both in poem and text, including all the stories. It has been circulated underground in Iran and is available for free download by Cyrus Force.

3- **Cyrus Cylinder**

The best description of Cyrus Cylinder is conveyed by the president of the British Museum, where the Cylinder is kept after its discovery in Iraq 100 years ago. Speech could be heard in YouTube.

The message is simple, and it is the first document of the Iranian Constitution at 2500 years ago.

Magna Carta is the first document of the British Constitution 800 years ago.

After Cyrus Cylinder was written, there were many kings managing the Empire of Iran, with borders from China to Mediterranean. Their success was to obey what was written in the Cylinder.

Cyrus Cylinder should be the Iranian Slogan for the future constitution.

4- **Three Commandments of Zoroaster**

Nobody knows the birth date of the Zoroaster philosophy in Iran and when the book of "Gadha" was written.

Even there is a dispute about the place of Zoroaster, who never claimed to be a prophet but a teacher. Zoroaster conveys a simple message of the three commandments: Good Thoughts - Good Deeds - Good Words.

Contrary to the fact that Zoroaster's is a philosophy, they say this is the oldest and mother of all religions. Many experts believe that the Aryan Tribes, who immigrated from the North to the South due to cold weather, went to India, and some to the Plato of Iran, and called themselves Aryan. Historians used the word Iran from Aryan.

These people found cities in this newly discovered land dated 10,000 years ago, living with Zoroastrian philosophy, and that was the law of these Iranians for many millenniums to come.

The first Iranian Government was formed in Ilam 4,000 years ago, with its capital in Susa (Shoosh). One hundred (100) years ago, Archaeologists discovered 300 Articles of the Hammurabi Constitution in Susa. Three thousand (3,000) years ago, another Iranian Tribe formed the Government of Med (the Iranian Kurds and Azerbaijan) while the Greek Empire was in power.

Two thousand five (2,500) hundred years ago, another Iranian Tribe formed the Government of Persia (the Persian) while the Roman Empire was in power.

There has never been any fight between Iranian Tribes, and all transfer of power has been peaceful among families since religion has no part in the Government and there was no religion except Zoroastrian and Judaism.

The conflict in the Persian Empire started when Constantine united the East and West Romans, and the Vatican became the center of power on Iran's Western borders.

To counter the Romans' religious power, Zoroaster Clergies started interfering with and influencing the Government, and gradually, their power became equal to that of the kings.

The Mazdakite disaster was the start of the Collapse of the Empire, and their commandments were replaced with the Sharia Laws of Zoroastrian Clergies and made Iran ready for collapse.

Iran needs a constitution that separates religion from Government, and the writers of the new constitution should have in mind Zoroaster's three commandments.

Conclusion

We, the Cyrus Force (Followers of Cyrus), believe there is no other way to change the behavior of the Ayatollahs' Regime in Iran except changing its constitution.

No other country in the World except the United States has the power by smart sanction to pressure the Islamic Republic of Iran to listen to the demand of the people in Iran to change the constitution and the eventual fall of Ayatollah's regime.

It is a hard sell to the American administration and all other world powers asking them to pressure Ayatollahs to change their behavior, which is according to their constitution.

The behavior of the Ayatollahs is ideal for the Military-industrial Complex and Banks, who have enjoyed enormous stolen Iranian assets and economic benefits due to the crises Ayatollahs have created in the World, let alone massive benefits from the brain-drain of Iran in the past decades.

United States and Western countries knowingly have created thousands of Terrorists Sleeping Cells in their soils, with Billions of Dollars stolen money in their bank accounts.

It is time Western politicians decide: is it worth welcoming this terrorist cell with Billions of Dollars in their accounts who are waiting for an order from the leader of Islamic State, according to Article 5 of Iran's Constitution, to carry out a terrorist act much worse than 9/11 according to Article 8 of the Islamic Constitution?

The answer will come after a US Senate and European Parliament debate.

This debate is Cyrus Force's request in the US Senate.

In Paris, (left to right), John Q. Naimi, Queen Farah Pahlavi Shahbanou of Iran, and General Paul Vallely.

Acknowledgments

Cyrus Force was founded in 1998 by John Quemars Naimi. It inspired and joined many Americans and Iranian Americans, such as the respected mother of Iran, Her Majesty Shahbanoo Farah Pahlavi, Shirin Neshat, General Paul Vallely, special agent and Middle East affair expert Naji Najjar, Dr. Sherrye Raze, Joe Kaufman, and many more human rights lovers and Cyrus Followers.

In the first meeting, Her Majesty told the audience: “Our country's glorious days go back to the year of Cyrus the Great. Today, we are in the dark age of the Ayatollahs' regime in Iran. We must do everything in our power to restore our nation and bring back dignity to Iran.”

In the last fifteen years, many other Iranians have joined the Cyrus Force and are firm believers in changing the Iranian constitution and the eventual fall of the Ayatollas.

Our primary website is www.CyrusForce.org, but www.IranianAmerican.info and www.ghanoon.org in Persian share our beliefs about changing the Iranian Constitution and the fall of Ayatollah's regime.
